 Class

 Instance => Object

class

 `puts 1.class`

 `puts "".class`

 `puts [].class`

Define your own Class

save in the file “my_class.rb”

```
class MyClass
```

```
  def say_hi
```

```
    puts “hi! I’m the method of MyClass”
```

```
  end
```

```
end
```

irb

```
>> require 'my_class'
```

```
# compare with program without class
```

```
>> say_hi
```
